ABOUT ME

Architect with experience in urban design, renovation, and space optimization. Skilled in planning and executing architectural projects with both functional and aesthetic value. Known for leadership, teamwork, and adaptability across diverse environments.

EXPERIENCE

Grupo Inelectrom

Head of Cost Estimating & Bidding Department

Queretaro, Mx.

06/2025 - 02/2026

Leading cost strategies, bid preparation, and supplier coordination

- Lead cost estimating strategies, bid preparation, and budget development for industrial and electromechanical projects across multiple regions in Mexico.
- Prepare detailed proposals, quotations, and financial analyses aligned with technical scopes and client requirements.
- Coordinate with national and international suppliers to secure competitive pricing, quality standards, and timely procurement.
- Oversee material logistics, including sourcing, purchasing, shipping, collection, and on-site delivery.
- Collaborate with engineering and project management teams to optimize resources and support strategic decisions through accurate cost forecasting.
- Ensure high-quality and timely submissions for major clients, including Niuco, Bachoco, Toyota, and other industrial partners.

Centennial Park / Toyota Park

Lead Designer

Guanajuato, Mx.

06/2025

Collaboration with the Facilities and Environmental team at Toyota Motor Manufacturing de Gto.

- Designed a sustainable park with native vegetation and a pedestrian friendly walking path.
- Led concept development, site analysis, and 3D modeling for executive presentations.
- Integrated recreational elements including multipurpose courts, kiosks, shaded seating areas, and walking trails to enhance community engagement.

SIBA Soluciones Industriales del Bajío SA de CV

Intern

Queretaro, Mx.

08/2024 - 05/2025

Professional Internship

- Design and development of an optimized parking lot to maximize space utilization.
- Applied urban design principles to create cohesive, pedestrian-friendly environments.
- Implemented mobility and accessibility criteria to ensure functional infrastructure.
- Collaborated in analyzing and planning vehicular and pedestrian circulation and interaction.

Varinia Vilchis

Intern

Queretaro, Mx.

02/2024 - 07/2024

Firm specialized in residential and commercial projects and interior design.

- Supported residential and commercial architectural projects from concept to development.
- Assisted with interior design proposals focused on functionality and aesthetics.
- Produced drawings, presentations, and design documentation for client review.
